# IN-VEHICLE CHARGERS FROM POWER PRODUCTS

*A charging solution for any mobile application.*

Ideal for fire, emergency, and utility service vehicles, or any installation that needs a proven in-vehicle charging solution.

Endura chargers are highly reliable and a top choice among communications and public safety professionals. All EC models charge Li-Ion, LiPo, NiMH, or NiCd batteries based on pod selected and can be powered from a 12V or 24V source.

## KEY FEATURES

- Radio may stay powered on while charging.
- EC models utilize replaceable pods allowing the charger to be updated for future use and with multiple radio models or brands. (Visit [www.powerproducts.com](http://www.powerproducts.com) for over 100 available pods.)
- Available for most radio brands including Motorola, Kenwood, Harris, Hytera, Icom, Maxon, BK Technologies, Tait, Vertex Standard and others.
- Provides cold and hot battery monitoring and other important battery warnings.
