

# Smart Batteries

Next generation of two-way radio batteries designed to keep you protected, informed, and powered longer.

## Features:

- Sophisticated diagnostics and fuel gauge to manage battery power.
- Provides important battery data on the charger or radio display, including battery recognition, rapid charging, & conditioning details.
- High capacity ratings for longer run-times.
- All models charge and calibrate with IMPRES™ 1 and 2 chargers.

\* Note that Power Products' smart batteries still need to be reconditioned with a compatible charger to stay calibrated and display enhanced features.

# Semi-Smart Batteries

A cost-effective alternative to smart batteries, semi-smart batteries display the fuel gauge on the radio.

## Features:

- Provides battery level icon on radio and low battery warning. Semi-smart batteries do not display battery information menu on the radio.
- Charges on IMPRES™ 1 and 2 chargers, but does not calibrate. Calibration is not required to maintain semi-smart features.
