

High Quality Batteries And Accessories For Portable Radios

Exceptional performance and reliability.

Land Mobile Radio (LMR) Batteries – Power Products offers a comprehensive line of batteries for portable radios. Incorporating only Japanese cells and manufactured to strict quality control standards, LMR batteries from Power Products enjoy a well-earned reputation for exceptional performance and reliability. Batteries are available for a wide range of radios, including Motorola, Alinco, BK, E.F. Johnson, Ericsson / GE, Icom, Kenwood, M/A-COM, Maxon, Midland, Relm, Tait, Uniden, and Yaesu / Vertex.

Designed for the ultimate in ruggedness.

Rapid Chargers – Packed with advanced charging technology, a Power Products rapid charger will charge your radio's battery quickly and properly every time. Single and multi-unit chargers are available for Motorola, Kenwood, and other popular radio models.

Leather Cases – The Power Products line of LMR cases features top grade materials and is designed for the ultimate in ruggedness. These cases feature reinforced leather, industrial strength stitching and riveting, plus a nearly indestructible D style swivel belt clip. For added convenience, many cases offer an elastic security strap to hold the radio in place and an over-the-shoulder carry strap. Models are available for all top-selling radios.

Single and multi-unit models are available.

The Wireless Accessory Experts

Power Products is a leader in the wireless accessory industry and enjoys a well-earned reputation for offering high quality accessories for land mobile radios and wireless phones. Every Power Products accessory meets high standards for quality to ensure that end users receive maximum performance, utility, and enjoyment from their portable radio or wireless phone. Since the company's inception in 1994, a commitment to "quality first" has played an important role in helping Power Products become a trusted supplier. In addition to its LMR product lines, Power Products stocks a full assortment of accessories for Motorola iDEN phones, including batteries, cases, vehicle power adapters, travel chargers, holsters, and hands-free headsets.

The company's management team consists of seasoned business professionals with years of hands-on experience in the wireless accessory business. Their collective talents and a proactive customer support philosophy ("More Than Parts, Partners") have enabled the company to achieve a leading market position.

The company is privately held and headquartered in Alpharetta, GA, a high tech suburb of Atlanta.

Designed For Performance - Manufactured For Reliability

Power Products designs its batteries and accessories to perform. User requirements are carefully considered and every product is engineered to fully meet demanding performance standards. In addition, the use of only top grade components and adherence to a rigorous quality assurance process ensures reliability in the field.

All LMR batteries feature Japanese cells.

Engineered for performance and reliability.

Robust clip designs allow rugged use.

Rigorous testing ensures high quality.
